

## SHOP FABRICATED TANKS

Kametal is able to produce storage tanks up to 5m diameter at the workshop and has the possibility to handle a weight up to 40 ton.

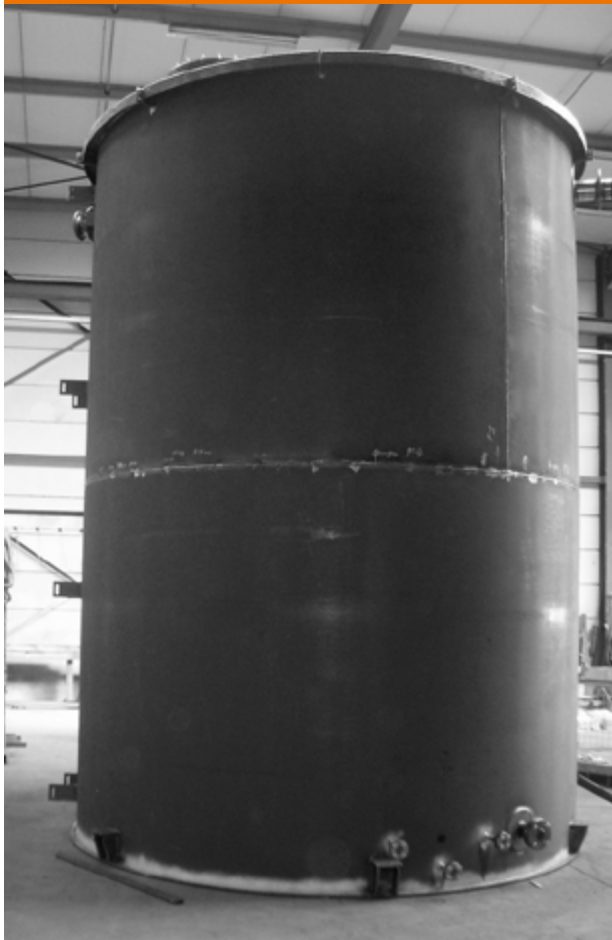

Our engineering department has extensive experience in all construction codes and tank types:

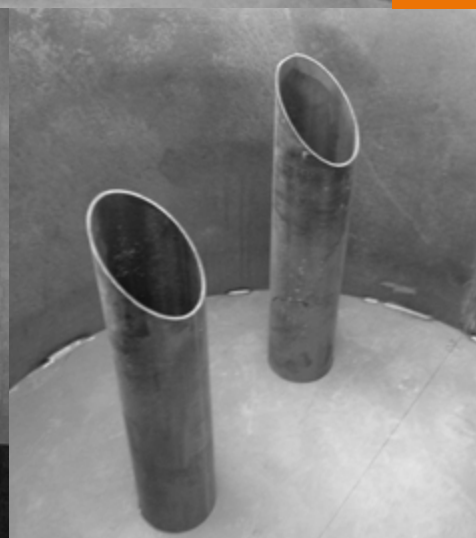

- Atmospherical tanks EN14015, API650
- Pressure and vacuum vessels: ad merkblatt, API653, asme, PED

There is hardly any limit to the range of materials we can apply for our constructions:

- carbon steel: s235 s355...
- stainless steel: 304L 316L ,304Ti, 904,alloy
- aluminium
- duplex

Considering the delivery address, we can choose which of our production facilities is the most suitable. Our production facilities are in Belgium and Poland.
